## IDENTITY

BuzziSpace is relentless in its pursuit of bettering the world through design. It started with acoustics. From there, the mission grew. Driven by an unbounded passion for solving modern design challenges, BuzziSpace continuously reimagines furnishings to be more functional and more fun. The brand provides new ways of working, living and being sustainable.

# 2007

Founded in Antwerp, Belgium

# 2014

the year we started manufacturing in the USA (High Point)

# The ABC's of BuzziSpace

AUTHENTICITY • BUILDING FOR THE FUTURE • CRAFTSMANSHIP • DESIGN DRIVEN • EXPECT THE UNEXPECTED • FAST PACE • GRIT • HUMOUR • INNOVATION • JOYFUL SOLUTIONS • 'KNOW WHY' IS AS IMPORTANT AS 'KNOW HOW' • LISTEN TO THE CUSTOMER • MEANINGFUL • NO BOUNDARIES, WE GO BEYOND THE EXPECTATIONS OF THE MARKET • OPEN MIND • PLAYFUL • QUALITY • RESPECT FOR OUR ENVIRONMENT • SILENCE IS NOT A LUXURY • TIMELESS • UNIQUE • VERSATILE • WORLDWIDE • EXCEL IN EVERYTHING WE DO • YES WE CAN • ZEST

## MANUFACTURING

BuzziSpace continuously strives for durable and high quality products which is reflected in our production process. With manufacturing units in the Netherlands (Bladel) and the US (North Carolina - High Point) we try to excel in everything we do and make. Our passionate craftsmen are constantly improving their skills to take the products to a higher level and to bring that extra sparkle to the product families.

THE 100 YEAR OLD FORMER COTTON MILL IN HIGH POINT WAS TRANSFORMED IN A BUZZIPROOF MANUFACTURING FACILITY WHERE CRAFTSMANSHIP IS KEY.  
— Manufacture High Point (North Carolina)

YEARLY MORE THAN 128,000 RUNNING METERS OF FABRIC ARE BEING USED TO PRODUCE BUZZISPACE SOLUTIONS.  
— Manufacture Bladel (The Netherlands)

The in-house developed innovative 3D technique opened new perspectives and enabled us to underline our role as a pioneer.

## DESIGNERS

BuzziSpace has always given opportunities to both upcoming and established designers to develop products and ideas that match the DNA of BuzziSpace. These designs are often ahead of their time and each tell a unique story. They do not only look good but they also meet a particular need.

“I don’t design with the ‘new way of working’ in mind, because I believe that people work and live how they want to. It’s my role as a designer to listen to their needs and try to give them a personalized solution.

BuzziLight Royal  
BuzziLight Alhambra

## Sas Adriaenssens

Sas Adriaenssens obtained a master’s degree in graphic design and illustration and, after several years in marketing, naturally moved into the world of interior and product design. After many years of experience in companies of all shapes and sizes, she went freelance in order to create her own cocktail of creativity and practical organisation. She prefers to regard herself as a ‘creative problem-solver with a compulsive aesthetic sense’.

Sas designed the very first products of BuzziSpace, who were made out of ecofelt, a hundred percent recycled material made of old plastic bottles. They were an instant hit and won several awards. BuzziSpace was catapulted into the spotlight and rapidly expanded its range keeping its original philosophy in mind: ecology, flexibility and acoustics.

## Alain Gilles

“Design is in the details.”

After studying Political Sciences and Marketing Management, Alain Gilles went on to work in the international financial world for five years, but he decided to follow his passion. Thanks to the moral support of his wife, he went back to study Industrial Design in France. He opened his own studio in 2007 in order to pursue his dreams and develop his personal approach to product design, furniture design, art direction and scenography. In 2012, he was named “Designer of the Year” by the prestigious Interieur Kortrijk Foundation in Belgium.

Alain Gilles started designing for BuzziSpace in 2009 and developed the BuzziHood, an acoustic cocoon you can hang on the wall and a fun reminder of the classic vintage phone booths. Alains’ experience with working in a corporate environment for 5 years also helped him understand the needs of open-plan offices, which he incorporated in new product ideas for BuzziSpace. Each of them are groundbreaking products that fit perfectly into the philosophy of BuzziSpace.

# 13&9 Design

We encourage interdisciplinary in every design project. Our different backgrounds give us the flexibility to use unconventional skills in developing new products.

Austrian product design firm 13&9 was founded in 2013 in Graz and is based on the partnership between architect and CEO of INNOCAD Architecture, Martin Lesjak (Contract magazine’s Designer of the Year) and designer Anastasia Su (who also studied medicine). 13&9 is a design studio for international companies and also has its own label that designs, produces and sells their own products. The interdisciplinary team’s successful cooperation with specialist partners has led to achievements in furniture, lighting, floor coverings, fashion, accessories and art objects, as well as exhibition and sound design projects. 13&9 collaborated with BuzziSpace for the first time in 2016 and created the BuzziBalance and BuzziBalance Board. Two pieces that encourage movement and energy—creating a hub of social activity in the office space.

# Jonas Van Put

Jonas Van Put is a young Belgian interior architect and furniture designer. He creates monumental steel constructions, furniture and art installations that question and improve social interaction. He is intrigued by nature, landscapes and everything that derives from this. The underlying processes of nature as well as artificial circumstances on different scales fascinate him. The launch of the BuzziJungle introduced the design world to young Belgian talent Jonas Van Put. It was Van Put’s first project with an international manufacturer.

## BUZZISPACE PRODUCTS

2016 BuzziJungle

In every design, I pay attention to the relationship with its public, and question social interactions among people.

### AWARDS

- #MetropolisLikes Award 2016 (BuzziJungle)
- HiP Award 2016 in category ‘Office Furniture’ (BuzziJungle - Honoree)

# Chris Hardy

### AWARDS

- HiP Award 2016 in category ‘Lighting’ (BuzziBell - Honoree)

I aim to develop pieces that can be connected with on an emotional level. My work is inspired by the challenge of personalization in the modern world and the increasing desire we have to own objects that match our own styles and philosophies.

Chris Hardy is an American industrial designer based in Atlanta. Born in 1984, he pursued an education of design, receiving a BFA from the College for Creative Studies in Detroit and a Masters of Design from the School of Design at the Hong Kong Polytechnic University. After returning to the United States in 2009 he began his career as a freelance designer collaborating with companies for both industrial and graphic design. His clients include interior design firms, retail stores, furniture and lighting manufacturers, and design publications. For the expansion of BuzziSpace’s range of acoustical lighting solutions, Chris Hardy created a distinctive new pendant shape, named BuzziBell, that won a HiP Award Honoree at NeoCon 2016.

## Gerd Couckhuyt

Belgian designer Gerd Couckhuyt opened his own design studio ‘Bhoom’ in 2012 and was a late bloomer in the design world. At a very young age he began his career at Bekaert Engineering as a mechanic and later as an electrician. At the age of 18 his interest for interior design was stimulated by a friend who painted. Later he obtained several degrees in art, interior design, light consultancy and sculpture art. The combination of his technical background and his feeling for creation and art makes him a more complete designer with an eye for the visual and the technical aspects. His inspiration comes from daily visual and emotional impulses. Designing objects and interiors is not an assignment for Gerd, but a distillation and fine tuning of ideas already present in his mind. He now works for several international brands, such as Modular, Wildspirit, Manutti, etc. With his design ‘Elements’ for Manutti he won the prestigious Red Dot Award in 2014.

All our furniture designs share a certain relationship: there is always a link, a kind of visual logic and a magical interplay of relationships. Call it unity in diversity if you will. Conspicuous details give all our designs a distinct identity and catch everyone’s eye.

## DUM OFFICE

You always remember the man with the scar.

DUM OFFICE is a Dutch design studio founded by designers Wiebe Boonstra and Marc van Nderpelt in the late nineties. The main objective of DUM OFFICE is to provide spaces with distinctive items all with a recognizable DUM signature: edgy, clean, playful, colorful and subtle. BuzziCane fits perfectly in their playful aesthetic signature and in our BuzziSpace DNA. The informal design of the BuzziCane welcomes guests with its friendly feel.

### BUZZISPACE PRODUCTS

D

## Anthony Duffeleer

Designing is the outcome of a process where the role of the designer is seriously relative. The material, the production process and other parameters control the direction and form of our designs.

The Flemish architect Anthony Duffeleer heads the Antwerp-based agency Frap together with architect Freia Rombouts. The duo is specialized in product design and architecture. In addition to this, Duffeleer is the initiator of Xala, a collection of must-haves for house and garden. As a designer he is particularly interested in the quest for the right production method. In 2010 he designed a funky room divider for BuzziSpace, named BuzziPlant.

### BUZZISPACE PRODUCTS

**2010** BuzziPlant

Our biggest challenge is to constantly innovate and search for an innovative and original approach where we can be proud of.

## COUVREUR.DEVOS

D

Bram Couvreur & Björn De Vos are a Belgian design duo who dare to reach beyond the borders of the everyday. COUVREUR.DEVOS is part of Maister, a creative agency, and focuses on interior design and product development. Whether it’s a question of lighting, champagne bottles or designing an interior: they make sure form and function are in harmony every single time. In 2012 they designed the BuzziWings for BuzziSpace, an inventive partition that ensures optimum acoustics and a subtle lighting of the room thanks to the integrated, indirect light source.

# Axel Enthoven

Axel Enthoven (1947) a big name in design land. With his design bureau, Yellow Window (formerly known as Enthoven Associates Design Consultants), he not only designs furniture but also buses, trams, trains or even medical equipment. This Antwerp based design bureau has already made 1,900 products, and is active worldwide in product development, design consultancy and innovation research. The team has won several awards, including various Red Dot Design Awards and IF Design Awards. For his pioneering work in the design sector, Axel Enthoven received the Henry Van de Velde Award in 2004. For BuzziSpace he designed the BuzziMe in 2012. The ideal lounge chair to get away from it all.

BUZZISPACE PRODUCTS

2012

BuzziMe

The big difference between designing today and in the past is that designing now has become team work, while it used to be a one-man business. Today there are so many different elements associated with our profession that are very important like for example marketing.

# Jean-Pierre Galeyn

We design from the bottom up, creating unique, innovative products appreciated by consumers, concerned by better quality and long term use.

Jean Pierre Galeyn owns a craft workshop called Tradewinds, where outdoor and garden products are created, assembled and distributed. The art of outdoor living is their main concern, so they reshape widely used and distributed products to restore their authentic purpose and make them lasting, user-friendly and pleasant to the eye. They seek for the perfect blend between authentic craftsmanship and new technology to achieve unique objects.

# Stal Collectief

Stal Collectief is a collaboration between four young furniture designers who studied in Mechelen (Belgium): Len de Paepe, Bob Segers, Tim Vrancken and Jonas Blondeel. This collective, which occurred through common interest and friendship, wants to create timeless and honest pieces of furniture and lighting objects. New ideas are conceived, prototyped and sometimes even developed under one roof. The BuzziShade is the culmination of an artistic collaboration between BuzziSpace and the four young Belgian furniture designers of Stal Collectief, which provides light and absorbs sound at the same time.

# Studio FanFan

Alice Monnier, founder of Studio FanFan and hotelier at Mas de L'Amarine, a B&B in the South of France, was looking for a table that was both unique and flexible. It had to be suitable for both indoor and outdoor use, and expandable when needed for her guests at the B&B. This resulted in a versatile table shaped like a comma, BuzziVirgule, that BuzziSpace launched in 2015.

## ACOUSTICS

From our early beginnings on, acoustics have always been a driving force when developing or considering new products. A well balanced room with a perfect acoustical level is a key factor to the performance and wellbeing of workers all over the world and therefore our logical main concern. For BuzziSpace, acoustics is more than just a generic word. It's our way of caring for workers and contributing to a pleasant working environment by balancing any given space with the recommended reverberation time and enhancing the speech intelligibility.

# SILENCE SHOULD NOT BE A LUXURY

When designing and developing new products, BuzziSpace focuses on acoustics right from the very start. Considering that a well-balanced space with fantastic acoustics is an important factor in employee wellbeing all around the world, it is logical that acoustics is a high priority for BuzziSpace. That noise in the office is detrimental to concentration and productivity is no surprise. The many stimuli and constant presence of colleagues interrupt brain activity, thus reducing concentration, which can lead to employee stress. Mental calm ensures better concentration, which automatically leads to greater productivity as well.

## CONTINUOUS TESTING:

All acoustic products of BuzziSpace are tested in an accredited test laboratory, Peutz Consult GmbH, to determine the absorption performance following the reverberation room method.

## ACOUSTIC ICONS:

To create a better acoustical environment BuzziSpace products are developed to perform in one or more of the following three levels.

### Absorption

Sound is energy and in order to stop this energy from propagating, absorptive panels will be used to convert this energy into heat through friction. The absorption coefficient of a product will determine the level and quality of absorption. Absorption applies to fixed wall or ceiling elements.

### Diffusion

Wavelengths which cannot be absorbed through acoustic treatment will scatter evenly back into the room, ensuring a better spread while maintaining a live, vivid sound. This property can be obtained by alternating different depths of absorptive material and 3D shapes.

### Attenuation

In order to block the sound transfer in between different spaces, vertical elements will be applied to cut down sound energy. Those can come in different shapes such as sound blocks, vertical ceiling panels, room dividers, desk screens... Attenuation or sound dampening has a positive impact on speech intelligibility and clarity.

## TIPS FOR GOOD ROOM ACOUSTICS

1. Reduce reverberation time
2. Increase speech clarity
3. Create a pleasant working environment for everybody
4. Search for the right solutions. If you're lost send us an e-mail at [acoustics@buzzi.space](mailto:acoustics@buzzi.space)

# RT60: A MUST HAVE FOR ACOUSTIC GEEKS

— When decorating a space, we often think of only the most visible items: tables, chairs and curtains. But what we do not see—the acoustics of the room—is too often forgotten. The RT60 app, developed by BuzziSpace, measures the reverberation time in each room and suggests products to improve sound quality. With the simulation tool, you can see the acoustical impact of products in your room.

BuzziSpace released an update in June 2016. The new app has an updated look and feel, in addition to an improved and updated catalog.

# BuzziBassTrap

— by BuzziSpace Studio

## Stackable acoustic corner unit

The BuzziBassTrap is a stackable acoustic element with storage space large enough for personal items. The ‘chamber’ behind the storage space is filled with absorption material. Low frequency sound is absorbed through this chamber.

By placing the BuzziBassTrap in a corner, there is optimum absorption as there is always a build-up of low frequency sound in the corners of a room. When the BuzziBassTraps are stacked on one another, a column is created that can be placed centrally in a room. As a result the pillar will not only absorb low frequency sound, but also make a big contribution to the total reverberation time in the high spectrum.

# BuzziBlinds Classic

— By Alain Gilles

### Room divider

These rotating acoustical blinds take their inspiration from modernist architecture—more specifically from the exterior sunshades that can be found on modernist buildings designed by Oscar Niemeyer. The free-standing room divider is made up of a series of five rotating acoustic blinds. With a simple twist, the blinds can be opened or closed to varying degrees to create privacy or open-up a space. This gives individuals the opportunity to determine the level of privacy they may want or need at any given moment to concentrate on a specific task.

## Acoustical performance and privacy with a twist

New additions to the BuzziBlinds Classic. The new generation of BuzziBlinds offers 4 different shapes of the fins covered with plain BuzziFelt. The innovative v-cut technique strengthens the architectural and minimal look. The rhythm and tonalities created by the orientation of the v-cut add a dynamic of depth to any space.

# BuzziBlox

— By BuzziSpace Studio

---

**Acoustic wall panel**

BuzziBlox is a group of acoustic panels with different depths, developed to tune a room in the speech spectrum range and especially in the low and mid frequencies.

By using alternating depths, the absorption of the different wavelengths into the thick layers of foam will be improved and make sure that the waves don't reflect into the room again. This diffusion effect will give the room a more pleasant sound experience. When placed against a wall, the Blox rather has the appearance of a piece of art while fully maintaining its initial purpose: to control and monitor the sound in any given room.

# BuzziBoard

— by Sas Adriaenssens

**Acoustic panel with power magnets in BuzziFelt**  
The BuzziBoard is a magnetic and sound absorbing memo board that can be attached to metal surfaces or to both sides of a glass wall with no need for hooks or screws. You can use it to pin things up, to absorb sound or to darken your windows; in any case this multipurpose object invites you to use your imagination in the workplace or at home.

## Dimensions

## Finishes

2 layers of BuzziFelt with 6 power magnets

## Mounting

- On a metal wall
- On a regular wall: use the metal strip
- 2 BuzziBoards with glass wall in between: gauge of glass max.10 mm - 0.39"
- Clear glass only, without osmose cleaning technique
- Not recommended for ceiling applications

# BuzziDesk FlipFlop

— by Alain Gilles

### Free standing desk divider screen

These movable and foldable acoustic screens have been designed in order to instantly define a quieter and more personal space on any desktop. They can be conveniently stored against a wall in a flat manner since their side flaps are fully movable. They can be used in a more or less closed manner depending on how protected one wants to be, but can also be set in a zig-zag manner on a table top. They were originally designed to be used on the multifunctional BuzziPicNic table (with two small extra slides that fit perfectly in its central opening), but they can be used on any table top to define a specific area when needed.

# BuzziFalls

— by Sas Adriaenssens

## A playful space divider in BuzziFelt

To divide a space and create some privacy, BuzziFalls is a playful variation in our acoustic solutions range. These strips are made out of BuzziFelt with cut out shapes in various patterns from organics to geometrics to city skylines. This design is a playful solution to regulate sounds and create smaller areas in big spaces.

The BuzziFalls Rail enables BuzziFalls to be slid with ease — creating movable room dividers that shift from private to public space. Running on a single three-meter track, panels slide from left to right. To create the effect of sliding doors, install two layers of parallel tracks for the rails. BuzziFalls can be attached directly to the surface of the track rail or suspended and exists in a black or white color.

# BuzziFrio

— by BuzziSpace Studio

### Set of three acoustic panels

Fresh mountain air would work wonders on office workers, but sadly bringing all that air into the city to ventilate workspaces would be quite a challenge. BuzziSpace has the next best thing. The shape of the BuzziFrio Machu and BuzziFrio Pichu room dividers recalls the rocky mountains of Peru, thus visually transforming an office space into a wide-open landscape. The playful shapes bring a touch of humor to the office, a defining trait of BuzziSpace.

As BuzziFrio consists of three panels set closely together, it has a large surface area that enables it to effectively regulate sound in a space. BuzziFrio is available in the standard Buzzifabrics and can also be covered with fabrics from selected Kvadrat collections.

# BuzziGrid

— by Alain Gilles

## Ceiling element in BuzziFelt

The BuzziGrid is a sound buffer that limits echo in a room. It takes its inspiration from the structures that have been widely used in the 60s and 70s to partially hide ceilings in public spaces. In this case the grid has been turned into a functional sound absorbing product that can be used in meeting rooms, lobbies, or other public spaces to define areas.

# BuzziResoFuser

— by BuzziSpace Studio

## Acoustic wall module

The BuzziResoFuser is designed to improve the audibility of speech in an enclosed space. Combined with BuzziTile 3D or BuzziBrickBack, a tasteful wall finish can be created. BuzziResoFuser operates on the basis of the quarter wavelength system. This means that the BuzziResoFuser must always be installed ‘alternately’. In this way, the apertures remain visible at all times. By creating a draughtboard pattern, the tops and bottoms remain open. The BuzziResoFuser is attached to the wall with a hook batten.

By changing the position of the partitions in the grooves at the back of the BuzziResoFuser, it is possible to absorb frequencies efficiently. This can be done by placing three partitions at the same level or at differing heights. To determine which frequencies have to be absorbed in the room, a reverberation time measurement has to be taken. The frequencies that remain in the room for longer periods have to be absorbed. The frequencies can be read on the back of the BuzziResoFuser. These frequencies have a specific bandwidth, which means that a frequency can always be chosen that is close to the problem frequency measured in the room.

## Dimensions

1 package consists 2 ResoFuser modules and 4 Tiles 3D or 4 BrickBacks.

## Finishes

BuzziResoFuser - black or white MDF  
BuzziTile 3D - L in fabric collection CAT A

# BuzziScreen

— by Sas Adriaenssens

### Sound absorbing dividing screen

The folding screen has come back into fashion with a bang! The BuzziScreen is a contemporary take on the flexible room divider with all sorts of advantages. For example, it can be extended infinitely: the handy recycled zipper system makes it easy for you to add panels. Just like with other BuzziSpace products, you can pin objects, photos or letters to the screen, and of course it works as sound absorption as well. Divide your office or room however you want, wherever you want!

## Dimensions

	Height		Zipper Height	
S	120 cm	47.24"	100 cm	39.37"
M	150 cm	62.99"	130 cm	51.18"

# BuzziScreen Mix

— by Sas Adriaenssens

**Sound absorbing sound screen with different heights**  
The BuzziScreen Mix combines different heights and fabrics to vibrant effect. Alongside, the regular BuzziFabrics (and select collections by Kvadrat) give a great edge to the end result. Add industrial zippers and this is not your average room divider, but a true designer piece. Of course, this room divider wouldn't be BuzziSpace if it didn't have acoustic qualities. The panel is covered with absorbent foam and fabric to reduce noise and high-pitched sounds.

## Dimensions

# BuzziSkin

— by Sas Adriaenssens

### Felt with self-adhesive backing

What would your perfect wall be like? Cuddly and sound absorbing? A surface you can pin photos to? Available in striking colors and easy to install? Environmentally friendly? Now you can have all these things at once! BuzziSkin has everything it takes to improve any interior at home or at work. It is available on handy, self-adhesive rolls.

### Roll

#### Roll

10 m x 0,98 m 393.70" x 38.58"

# BuzziSkin Printed

— by Sas Adriaenssens

## Design your wall

Customize your wall with our new BuzziSkin Printed and be original and choose your own personalized print. You can choose an all-over print or a placed print. Soon we will offer ready to use BuzziSkin Printed panels with a marble and concrete look.

## Dimensions

Max thickness

6 mm 0.24"

## We can print

1. Text
2. Logo
3. Bright colors
4. Solid colors
5. Shades of the same color
6. Black and white print
7. Sharp lines in between colors
8. Geometric shapes
9. Organic shapes
10. Fine print
11. And probably a lot more...

### A few things to keep in mind:

- An exact color match will not be possible, due to the color and texture of BuzziSkin. We can print on all Skin colors, but the Skin color will directly impact the end result. A document showing the different results on different felt colors can be sent upon request.

We suggest to print on BuzziFelt OffWhite, to get as close to the desired color as possible. To match specific colors, we will provide three samples of colors that are close to the requested color for approval.

- The inks used are UV-resistant. UV-test report can be mailed upon request.
- Print is only on the front of the felt. The visible edges will still have the original felt color.

# BuzziTotem

— by BuzziSpace Studio

## Free standing acoustic pillar

BuzziTotem is our peak acoustical performance product. The range consists of three models – Wedge, Cylinder, Beam and each in three sizes. Thanks to its small footprint, it is easy to add in existing rooms with sound issues. BuzziTotem is a high performance product for diffusion and absorbing sounds in offices, residential homes and hospitality areas. Thanks to the vast range of fabrics offered, BuzziTotem can become a true design feature.

# BuzziBalance

— by 13&9 Design

### Move your body, move your mind

BuzziBalance creates a non-traditional environment that brings people together, provoking joy and conversation. The BuzziBalance family offers both a seating and standing element.

While standing, BuzziBalance Board becomes a muscle activator. As one balances on the wooden-carved rocking board for a few moments, the mind and body are awakened. While sitting on the BuzziBalance, a rocking pouf in small and large version, the benefits of purposeful stretching are brought into the workplace. The upholstered seat also offers added acoustical benefits.

The perfect solution for creative hubs in the workplace, hospitality or residential homes. BuzziBalance offers the best of both worlds. Stretch your legs for a quick phone call or gather and rock away during a creative session.

# BuzziBooth

— by Alain Gilles

---

**Upholstered temporary workstation**

There has been a big shift toward working in open-plan offices that have a loft-like feeling of home. While there are many benefits, the challenge is maintaining space to make a phone call or work quietly and independently. Designer Alain Gilles’ solution is the BuzziBooth: a phonebooth made of sound absorbing felt that dampens outside sounds. Now you can have a moment alone even in the noisiest of surroundings. Micro-architecture for maxi spaces!

# BuzziCockpit

— by Alain Gilles

## Acoustic desktop cocoon

The BuzziCockpit is a tool for personal privacy and wellbeing. It is a small, compact and ergonomically-designed acoustical cocoon. It is a piece you can easily add in any office by setting it up on top of any existing table. By doing so, a quieter and more private area is instantly defined within the space. When using it, one should grab the handles and slightly pull the BuzziCockpit closer in order to enhance the acoustic experience. It can easily be moved back to create a larger, more collaborative work area as well. This cocoon can be used as a clever add-on to any office, but would also be very useful in public places such as libraries or hotel lobbies.

# BuzziMe

— by Axel Enthoven

---

**Lounge Chair**

Me, myself and I: there are times when you want to spend some time on your own in peace and quiet. BuzziMe is the ideal space to get away from it all. Belgian designer Axel Enthoven was responsible for an ingenious look that harmoniously combines functionality and ergonomics. Put two BuzziMe lounge chairs together for a private meeting. The acoustic absorption of the lounge chair reduces any external noise and vice versa: the perfect chair for lobbies, airports and offices - or your very own 'quiet' cocoon at home.

### The perfect chair to bounce back

BuzziBounce is a full-bodied seat on a flexible metal base that provokes a light spring-like effect when sitting. It is defined by its S-shape. Either a wood finish or upholstery can be used as a highlight on the back of the chair. BuzziBounce brings movement into an otherwise static workday. Its mixture of materials and interactive design distinguish it as an engineered, comfortable seating experience. BuzziBounce is ideal for offices or residential use and fits perfectly with the BuzziTrihex table.

# BuzziCane

— by DUM OFFICE

**A soft lounge sofa on an unexpected frame**  
With its woven cane back, wood base, and luscious upholstery, the BuzziCane sofa brings a fresh, vintage-inspired look into the contemporary workplace. This sofa mixes a firm, elevated structure with plush seat and back cushions that are perfect for relaxing. Created by Dutch designers Wiebe Boonstra and Marc van Nederpelt, BuzziCane recalls the playful aesthetic that made them famous. The informal design welcomes guests with its friendly feel. BuzziCane is ideal for hotel suites, private offices and homes. It is available as a one, two or three seater.

# BuzziFloat

— by Alain Gilles

**A minimal chair to maximize space**

BuzziFloat is an intentionally simple design that blends into its surroundings. This transparant chair is engineered to feel spacious and airy and has a strong graphic personality. BuzziFloat is offered in multiple finishes: non-upholstered or upholstered with an elegantly cushioned seat and backrest. Meeting all functional needs the chair is available with three base options: wooden base, metal cross (with or without wheels). The bent plywood back support aligns perfectly with your tabletop. BuzziFloat fits together perfectly with BuzziPicNic tables in office settings, residential homes and hospitality areas.

**Finishes**

# BuzziJungle

— by Jonas Van Put

### Vertical conversation tower

Inspired by nature, BuzziJungle offers a solution to the conventional meeting space. The launch of the BuzziJungle introduced the design world to young Belgian talent Jonas Van Put. This is Van Put’s first project with a major international manufacturer. BuzziJungle is BuzziSpace’s reflection of their vision for the social office and further pushing the traditional boundaries of the workplace.

Various elements within the structure provide an opportunity for different interactions within the “jungle”. You can climb, lounge and meet in the elevated work-lounge space made from powder coated steel. The BuzziJungle creates an urban footprint in large and small spaces.

# BuzziMilk

— by Alain Gilles

---

**A classic milk stool**

This rustic-meets-modern take on the old farmhouse favorite would even make your grandma feel nostalgic. BuzziMilk is a sturdy little stool inspired by elements not usually found in a standard office space. Its goal? Create a warm and homey feeling at work.

BuzziMilk has four legs and an upholstered seat for a softer experience. Select from a variety of wood finishes and make it your own by pairing with one of our many BuzziSpace fabrics. Whether you choose a bold pop of color (red, yellow, green, white and blue) or a natural neutral, it is designed to stand on its own or match the BuzziPicNic table.

Looking for a pure wood stool? BuzziMilk Stool Allwood is pure simplicity and strong design.

# BuzziNordic ST100

— by Ståffan Thomassen

### Lounge chair with Nordic heritage

The timeless look of Scandinavian furniture inspired the BuzziNordic Series. Model ST101 is a sleek armchair with a vintage look. The Nordic-inspired armchairs are also available in Memphis-style colors that pop out of the room. This Italian design trend from the eighties is back and we love it. Primary colors like red, blue, yellow, white and green are a must in every office. The homey feel of the armchairs is an ideal match for new BuzziSpace fabrics from Kvadrat. Discover the magic!

# BuzziTrihex

— by Gerd Couckhuyt

### A new take on the meeting table: functional yet elegant

The original round table has been rethought in its simplicity. Tuning the outlines and bringing in soft edges results in a distinctive design language which makes BuzziTrihex unique. The base is intentionally streamlined and subtle in its design to showcase the natural beauty of the wooden top. Available in two sizes, one rounded and the other rectangular, the table can fit up to nine or twelve guests. The BuzziTrihex is offered in a solid wood tabletop and base. It can be used in a private office, a meeting room or a hospitality suite.

### Acoustical lighting solution

Stretching the BuzziFelt to its limits, BuzziBell is recognized by the harmonious curve of its bell-shape. Its design adds softness to a room with the textural look of felt and a delicate, diffused light source or high performance LED engine. BuzziBell is offered in the 12 BuzziFelt colors, has a metal feature and will be CE and UL listed. BuzziBell makes a statement in offices, restaurants, hotels, institutions and residences.

# BuzziClipse

— by BuzziSpace Studio

---

**Acoustic play of light**

BuzziClipse offers the best of both worlds: subtle back lighting experience and highly acoustical performance. The frontpanel of BuzziClipse, designed to tackle acoustical issues in a room, is based on a highly finished aluminum frame housing the LED strip with an output of 870 lumen. The LED frame is offered in 2 variants: square and rectangular. Playing with different LED frames combined with front panels, upholstered in different fabrics, results in a nice wall feature and a high-performance sound dampener. This product is a true acoustical “eclipse”.

OUTDOOR

# BuzziBreeze

— by BuzziSpace Studio in collaboration with Cassecroute

**Outdoor workstation**  
BuzziSpace has always had a penchant for picnics, which is why it created the BuzziPicNic. This award-winning indoor table has all the nostalgic design features of a traditional picnic table. Our love of outdoor living inspired our designers to create BuzziBreeze, answering the call for an outdoor workstation that captures the collaborative needs of the modern workplace. BuzziBreeze is constructed using a powder coated metal frame, with the top and seat in weather-resistant hardwood or aluminum. Available: BuzziBreeze High and BuzziBreeze Low, as well as a special ‘Half’ version, which is reminiscent of an old-style school desk.

## Models

### High

### Low

### High Half

### Low Half

**Length** 200 cm 78.74" 300 cm 118.11" 400 cm 157.48"

## Finishes

Base in powder coated steel black (RAL 9005) or white (RAL 9010)  
Worktop & seats in powder coated aluminum black (RAL 9005) or white (RAL 9010), Oak\* or Iroko.  
Iroko wood is naturally durable but may be prone to movement and cracking in outdoor environments.

## How to order

- Model
- Length
- Color base
- Material worktop & seats

\*Not suitable for outdoor use

# BuzziShed

— Jean-Pierre Galeyn and  
BuzziSpace Studio

**Outdoor shed**  
While working outside might seem nice, the lack of comfy furniture and the glare of the sun on your laptop or smartphone screen might cause a lot of discomfort. Until now. With the launch of the BuzziShed, designed by Jean Pierre Galeyn and BuzziSpace Studio, you can now work or spend time outside in this stylish outdoor shed, protected from sunlight and even from the rain. The BuzziShed can also be used as a garden shed on cool or rainy days or to create meeting points in a large open space.

## Dimensions

## Top

## Finishes

Frame: Hot galvanized steel  
Roof: Sunbrella fabric  
Floor: Anti-Skid outdoor plywood

# BuzziVirgule

— by Studio FanFan

### Organic shaped table

Alice Monnier, founder of Studio FanFan and hotelier at Mas de L’Amarine, a B&B in the South of France, was looking for a table that was both unique and flexible. It had to be suitable for both indoor and outdoor use, and expandable when needed for her guests at the B&B. This resulted in a versatile table shaped like a comma. One table can host between one and five guests. When expanded with another table in a yin yang shape, it can host between six and nine guests. Its convivial colors and round legs (combined with its fresh shape) result in a versatile, lively multipurpose table.

### Dimensions

### Finishes

Plywood with HPL top (blue, red, yellow, black or grey)  
Black powder coated frame

# WOOD

- IROKO
- ANTWERP OAK
- OAK
- WALNUT
- ASH NATURAL
- ASH WALNUT STAINED
- ASH BLACK STAINED
- ASH WHITE WASH
- ASH LACQUERED
- HPL
- WHITE LAMINATE
- HPL PLYWOOD

## Iroko

**Properties** Tropical hardwood which is more resistant to weather influences. It does not require as much maintenance when used outdoor. Oil based coating with white pigments consisting of durable finish, suitable for furniture, that masks normal wear and leaves the wood grain visible to the eye.

**Maintenance** First, wipe the surface with a dry cloth then clean carefully with a damp cloth. Do not use any abrasive cleaning products or scourers as this can damage the surface. Note: Iroko wood is naturally durable but may be prone to movement and cracking in outdoor environments.

## Antwerp Oak

**Properties** Oak Solid wood with a subtle rustic look, allowing some pith and small cracks. Oil based coating with white pigments consisting of durable finish, suitable for furniture, that masks normal wear and leaves the wood grain visible to the eye.

**Maintenance** First, wipe the surface with a dry cloth then clean carefully with a damp cloth. Do not use any abrasive cleaning products or scourers as this can damage the surface.

## Oak

**Properties** Clear coating with a matt varnish look, consisting of a durable finish, suitable for furniture, that masks normal wear and leaves the wood grain visible to the eye.

**Maintenance** First, wipe the surface with a dry cloth then clean carefully with a damp cloth. Do not use any abrasive cleaning products or scourers as this can damage the surface.

## Walnut

**Properties** Clear coating with a matt varnish look, consisting of a durable finish, suitable for furniture, that masks normal wear and leaves the wood grain visible to the eye.

**Maintenance** First, wipe the surface with a dry cloth then clean carefully with a damp cloth. Do not use any abrasive cleaning products or scourers as this can damage the surface.

## Ash Natural

**Properties** Clear coating with a matt varnish look, consisting of a durable finish, suitable for furniture, that masks normal wear and leaves the wood grain visible to the eye.

**Maintenance** First, wipe the surface with a dry cloth then clean carefully with a damp cloth. Do not use any abrasive cleaning products or scourers as this can damage the surface.

## Ash Walnut Stained

**Properties** Oil based coating with walnut colored pigments consisting of durable finish, suitable for furniture, that masks normal wear and leaves the wood grain visible to the eye.

**Maintenance** First, wipe the surface with a dry cloth then clean carefully with a damp cloth. Do not use any abrasive cleaning products or scourers as this can damage the surface.

## Ash Black Stained

**Properties** Black clear coating with a matt look, consisting of a durable finish, suitable for furniture, that masks normal wear and leaves the wood grain visible to the eye.

**Maintenance** First, wipe the surface with a dry cloth then clean carefully with a damp cloth. Do not use any abrasive cleaning products or scourers as this can damage the surface.

## Ash White Wash

**Properties** Oil based coating with white pigments consisting of durable finish, suitable for furniture, that masks normal wear and leaves the wood grain visible to the eye.

**Maintenance** First, wipe the surface with a dry cloth then clean carefully with a damp cloth. Do not use any abrasive cleaning products or scourers as this can damage the surface.

## Ash Lacquered

**Blue**  
PANTONE 299 C

**Green**  
PANTONE 370 C

**Red**  
PANTONE 185 C

**Yellow**  
PANTONE 115 C

**White**  
PANTONE 000 C

**Properties** Lacquered coating with matt look, leaving a visual woodgrain.

**Maintenance** First clear the surface with a dry cloth, then clean with a slightly damp cloth. Do not use abrasive cleaning products nor scourers, they can damage the surface.

## HPL

**Volcanic Black**  
Duropal U 1200 VV

**Truffle Grey**  
Duropal U 1102 VV

**Pearl**  
Formica F 7934 MATT 58

**Properties** HPL top layer with chipboard core and straight ABS edge band

**Maintenance** Depending on the stains/dirt there are different prescriptions:  
LIGHT: dry or damp paper towels, a cloth or sponge.  
NORMAL: with a cloth or soft nylon brush and washing powder, soft soap, toilet soap or washing-up liquid. If necessary, leave for a while and then rinse thoroughly with clean water.  
HEAVY: Discoloration stains through long exposure to tea, coffee, etc. use washing powder and household bleach (but do not repeat too often). For stains such as lead pencil, felt-tip pens, marker and ball-point pens use an organic solvent, for example acetone (nail varnish remover).

**IMPORTANT**

- Please do not cut or chop directly on the worktop surface
- Avoid abrasive cleaners and pads, corrosive or aggressive cleaning agents. The use of PVC aprons may affect the durability of the HPL on the post-formed edge of worktops, and could lead to premature wear in high traffic work areas such as in front of the sink and hob
- Kettles, coffee machines, fryers and other heat or damp sources should not be positioned directly over worktop joints
- Cuts and scratches will be more noticeable on dark decors and gloss finishes

• Avoid abrasive cleaners and pads, corrosive or aggressive cleaning agents. The use of PVC aprons may affect the durability of the HPL on the post-formed edge of worktops, and could lead to premature wear in high traffic work areas such as in front of the sink and hob  
• Kettles, coffee machines, fryers and other heat or damp sources should not be positioned directly over worktop joints  
• Cuts and scratches will be more noticeable on dark decors and gloss finishes

**Note** color deviation may occur.  
Find the latest update of the material specifications and colors on our website: [www.buzzi.space](http://www.buzzi.space)  
**Refinishing** Renovation should be done by a specialist in furniture coating. It requires sanding of the parts and re-applying an equal amount of coating on all sides.

## Powder Coated Metal

**Black**  
RAL 9005

**Alu**  
RAL 9006

**White**  
RAL 9010

**Fluo Orange**  
RAL 2005

**Properties** Fine-textured powder coated steel or aluminum with a matt look.  
**Maintenance** Clean as needed using a soft cloth or brush with a mild detergent. Avoid steam cleaning, abrasive cleansers, carbon steel brushes/wools and cleaners containina chlorine.

## Uncoated Aluminum

**Properties** Bare aluminum with clear coating.  
**Maintenance** Clean as needed using a soft cloth or brush with a mild detergent. Avoid steam cleaning, abrasive cleansers, carbon steel brushes/wools and cleaners containing chlorine.

## Galvanized Metal

**Properties** Hot-Dip Galvanization > applying a protective coating layer to prevent corrosion of the metal part.  
**Maintenance** Clean as needed using a soft cloth or brush with a mild detergent. Avoid steam cleaning, abrasive cleansers, carbon steel brushes/wools and cleaners containing chlorine.

# METAL

- POWDER COATED METAL
- UNCOATED ALUMINUM
- GALVANIZED METAL

**Note** color deviation may occur.
